Subject: Working Visit to Major European Ports

Dear Chair,

The Committee on Infrastructure, Mobility and Housing of the Portuguese Parliament has been closely following the evolution of European policies concerning the port sector, fully recognizing the strategic importance of ports for economic competitiveness, sustainability, and territorial cohesion.

In this context, the Committee has a particular interest in undertaking a working visit to the three largest European ports — Rotterdam, Bruges, and Hamburg — with a view to gaining deeper insight into port governance models, mobility and logistics solutions, technological innovation, as well as environmental best practices and urban integration.

Within the framework of the constructive parliamentary cooperation between our institutions, we would greatly appreciate your support in facilitating the necessary contacts with the relevant authorities so that a delegation from this Committee may be formally invited to visit each of these ports, in the last week of September.

Furthermore, the Committee on Infrastructure, Mobility and Housing would be delighted to be accompanied during these visits by a delegation from your counterpart Committee, as this would further strengthen institutional ties and foster a valuable exchange of knowledge and experience.

Please accept, dear Chair, the assurances of my highest consideration.

Mobility and Housing
